**RE: Resolution regarding stakeholders in ability to access the Department of Neighborhood Empowerment's (DONE) "Corner Stone" portal for required trainings.**

Whereas, Neighborhood Council Board Members, both elected and appointed, are required to do three trainings in order to vote on issues that come before the council: Ethics, Funding, and Code-of-Conduct Training.

Whereas, the Department of Neighborhood Empowerment tracks the compliance on these three items and posts the results of the each training on the department website so that the public and the board can see who is eligible to vote.

Whereas, at the end of the 2019 Election Cycle, all board members in the neighborhood council system were sent an email from the department containing their new LA City Cornerstone Board Member Training Portal login credentials.

Whereas, the LA City Cornerstone account does not allow users to add themselves and it is a paid service which limits how many users can be added and it excludes the public from gaining access to the portal.

Be it resolved, the Harbor City Neighborhood Council promotes transparency and requests that the Department of Neighborhood Empowerment eliminate the LA City Cornerstone Portal service from their annual budget and return free access to all stakeholders.
